Dear U.S. Copyright Office,

[THREAD ID:1-4W6K9XW]

As I said in my previous email to you, I believed this constitutes a dramatic work because it depicts me engaging in my daily life, just like many other Internet vloggers. However, since sending that email, I did a little research and I realized there is a possibility that the video might have been better classified as a "motion picture."

I just spoke with a lady on the phone. She told me that, if this misclassification is the only error I made in my application, that you will only change just that one thing in the application and the process the application from there. I will not have to do the application all over again from scratch. I breathed a sigh of relief when she told me this.

However, I would greatly appreciate it if you processed my application quickly. The lady told me that I have lost my opportunity to pay extra for expedited processing, but if you could potentially bump me up in the queue by a few spots without risking losing your job in the process, I would very much appreciate it. As I said last time, I have a currently pending lawsuit, and the judge has ordered me to submit my Amended Complaint by no later than July 30, 2021. So I would very much appreciate having my Certificate in hand by no later than that.

Thank you for your assistance, and please update my application ASAP.

Sincerely,  
David Stebbins
